Honorable William Casey  
Director  
Central Intelligence  
Washington, D. C. 20505

Dear Bill:

I've reviewed the second issue of the National Intelligence Estimate (NIE 11-12-83), "Prospects for Soviet Military Technology and R&D (U)," which your staff prepared at my request. It is an excellent follow-up to the initial 1980 effort. [redacted] and Julian Nall briefed me on the summary and key judgments of the estimate in late December, and Julian mentioned that he is already planning for the follow-on estimate. I know that many people in the Intelligence Community worked hard to make this effort successful. They deserve to be complimented on an important job well done.

25X1

Because I was the original sponsor of this estimate, Julian suggested that my views on the follow-on effort might be helpful in planning the 1985 effort. I have included them in the attached page. I will be happy to help in any way I can to provide DoD expertise in support of NIE 11-12.

Thank you for your excellent effort. Please express my appreciation to the intelligence people who made this such a valuable product.

Sincerely,

Attachment (C)
